

The Gold Carriage House Edition

MODEL RMT 660 Insulated Residential Garage Doors

The Gold Carriage House Edition is architecturally pleasing and features the beauty of a deep embossed wood grain appearance and the durability of steel. The RMT 660 is an investment in value as it is urethane insulated for maximum energy efficiency. Engineered for years of use, each door is made from galvanized steel, which won't rot, crack, or warp. The insulated RMT 660 is ideal in all climates, keeping garages cooler in summer and warmer in winter. See for yourself why the Gold Carriage House Edition RMT 660 is an unmatched value for your home.

The Gold Carriage House Edition

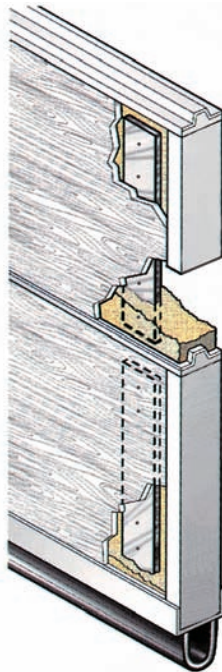

MODEL RMT 660 Insulated Residential Garage Doors

Crafted with Excellence

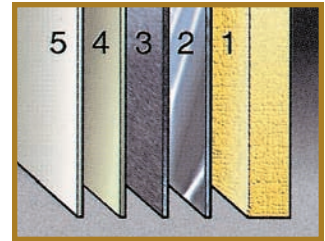

The RMT Model 660 is crafted and engineered for energy efficiency without sacrificing beauty or practicality. The premium quality and superb craftsmanship of these doors are exemplified throughout the Series. The Gold Carriage House Edition RMT Model adds Value and elegance to any home.

Practical, Efficient, Versatile

RMT Models are constructed from galvanized steel which means you won't have to worry about rusting, warping, or rotting. The Gold Carriage House Edition RMT Model features attractive wood grain embossed steel and provides maximum energy efficiency with 1 3/8" thick, CFC-FREE, polyurethane insulation with a calculated R-Value of 13.45. The net result is an energy-efficient door providing more than five times the insulating value of wood or non-insulated doors. The embossed steel is factory pre-finished, painted on both the exterior and interior with epoxy primer, and then covered with a durable polyester finish coat. Additionally, the doors can be field painted to match your color scheme. The Award Series is manufactured to be virtually maintenance free and is designed for a lifetime use.

- Vinyl top cap provides thermal barrier and foam protector.
- Full thermal break on ALL sections insulates from extreme temperatures.
- Embossed galvanized steel skins assure protection from warping, rotting, and rusting.
- Attractive deep wood grain embossed steel is factory pre-finished and painted on both the exterior and interior with epoxy primer and polyester finish coat.
- Rigid vinyl end caps protect and seal the foam core and provide a smooth surface for door stops.
- Weather seals between each section keep out wind and rain.
- 1 3/8" polyurethane insulation is pressure injected and leaves no voids when bonding to both exterior and interior skins.
- Heavy 20-gauge galvanized back-up plates extending the full height of each section give superior hardware support.
- Flexible vinyl bottom astragal fits contour of floor providing a weather seal and is easily replaced if damaged.

Protective Paint System

This three-tier corrosion-resistant protection is designed to repel even the most hostile weather conditions. The protective layers found on both the *interior and exterior* are:

1. Foam-injected polyurethane
2. 26-gauge steel
3. Galvanizing
4. Epoxy primer
5. Polyester top coat

Standard Panel Widths:

Width	660
8' 0"	4
9' 0"	4
10' 0"	4
12' 0"	6
14' 0"	6
15' 0"	6
16' 0"	8
18' 0"	8

Two Additional Models To Choose From

The RMT 660 Model is sure to please even the most discriminating tastes. The RMT 660 is available in white, almond, brown, sandstone, hunter green, and bronze. For added beauty, two window options are available.

All RMT 660 Models are covered by a limited lifetime warranty. This is just one more feature that assures you are purchasing the most trouble-free door available. We wouldn't have it any other way.
